OPERATIONS ACROSS THE GLOBE

GARMCO was formed in 1981 as the first fully dedicated downstream aluminium facility in the Middle East. Today, it ranks as one of the prominent manufacturers of flat rolled aluminium products, and is recognised for being one of the leading proponents of eco-friendly processes, and praised for its consistent commitment to sustainability.

With its headquarters and manufacturing plant based in Bahrain, GARMCO serves the needs of over 2,000 customers in more than 45 countries through a network of offices located in Australia, Europe, Singapore Thailand, USA and Vietnam. GARMCO's global presence is further facilitated by being based in a country like Bahrain, which offers easy connectivity by air, land and sea to markets in Africa, Asia, Australia, Europe and North America.

- 📍 Gulf Aluminium Rolling Mill (GARMCO), (Kingdom of Bahrain)
- 📍 GARMCO USA Inc. (USA)
- 📍 GARMCO (Australia) Pty Ltd (Australia)
- 📍 GARMCO Singapore Pte Ltd (Singapore)
- 📍 GARMCO Europe
- 📍 GARMCO Metals (Thai) Co., Ltd (Thailand)
- 📍 GARMCO Vietnam (Vietnam)

HIGH-QUALITY ALUMINIUM PRODUCT RANGE

GARMCO's high-quality commodity flat-rolled aluminium coils and sheets are manufactured using Direct Chill Casting since this method provides for a more stable and homogenised property. The products are available in various gauges, sizes, alloys and tempers, and are suitable for a range of applications from reflective road signs to kitchenware and more.

Currently, the company boasts a production capacity of 165,000 tonnes per annum.

GARMCO manufactures five different types of products with their own set of specifications and uses. The product range includes coils and sheets in 1xxx, 3xxx, 5xxx and 8xxx series alloys for applications in gauges from 0.2 to 8 millimetres, and up to 1,600 millimetres wide. Product applications are available in a range of alloys and tempers perfectly suited to customer preferences and to the satisfaction of their end user.

QUALITY IS BUILT-IN NOT JUST TESTED

GARMCO maintains the highest quality standards keeping in mind product excellence, operational safety and environmental regulations.

Having earned global recognition for processes that adhere to best practices, as well as praised for the relentless pursuit of quality at all operational levels, GARMCO has succeeded in exceeding customer expectations through international industrial standards such as AA, ASTM, JIS, EN, AUST and many others.

GARMCO has also received international accreditation for the company's successes in prioritising quality at the workplace and achieving tangible results. The certifications include ISO 14021:2016; ISO 9001:2015, ISO 22301:2012, ISO 27001:2013, along with EHS standards, ISO 14001:2015 and ISO 45001:2018. as well as CE Marking Product Certification.

Max. Thickness	Min. Thickness	Max. Width	Min. Width	Max. Length	Min. Length
3.2mm	0.4mm	1560	700mm	6100mm	650mm

Aluminium Sheets

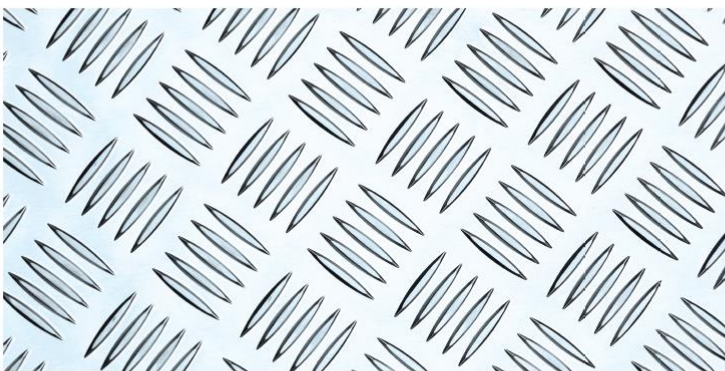

GARMCO produces Aluminium sheets in a wide range of alloys and dimensions. These sheets are produced with or without paper interleaves, Polyethylene (PE) coating - 50 & 100 micron.

Max. Thickness	Min. Thickness	Max. Width
2.5mm	0.2mm	75mm

Slitted Coils

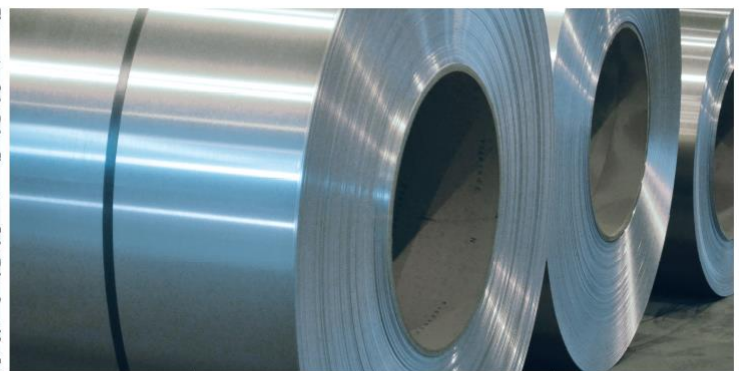

GARMCO produces slit coils according to customers requirements. They are slit to narrower widths from mill width coil offering different types of alloys and tempers.

Max. Base Thickness	Min. Base Thickness	Bar Height	Max. Width	Min. Width	Max. Length	Min. Length	Pattern	Alloys
3mm	1.5mm	Min 0.9mm to Max 1.5mm	1590mm	900mm	6100mm	650mm	5 Bar	1050, 3105, 5754, 5005 & 5052

Checkered Plates Coils & Sheets (Tread Plates)

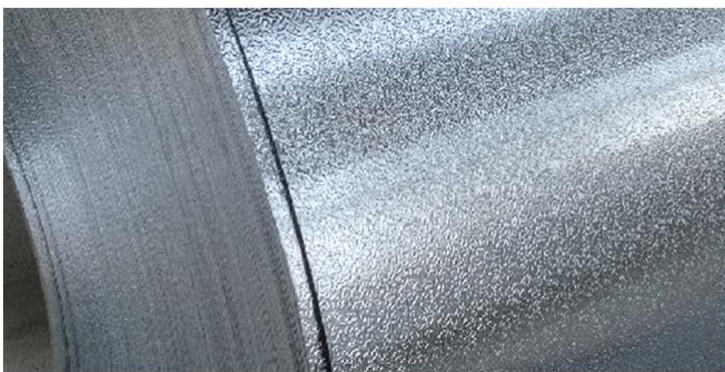

GARMCO produces tread/ checkered plates, which provide a durable and anti-slip surface. As they are highly resistant to weathering, corrosion, and chemicals, these checkered plates require no maintenance or surface treatments. They are suitable for many applications including floors, walls, trailers, garages and gyms.

Max. Thickness	Min. Thickness	Max. Width	Min. Width
8mm	0.2mm	1600mm	750mm

Aluminium Coils

GARMCO produces Aluminium Coils in various alloys and tempers. It includes coils in 1xxx, 3xxx, 5xxx and 8xxx series alloys for a wide range of applications in gauges starting from 0.2mm to 8mm and up to 1600mm width. These Aluminium coils can be hot washed and tension levelled based on the customer's request. GARMCO also produces Hot and Cold Rolled Coils based on the customer's request.

Max. Thickness	Min. Thickness	Max. Width	Min. Width	Pattern
8mm	0.2mm	1600mm	750mm	Standard & Shallow Stucco Embossed

Stucco Embossed Coils

GARMCO produces one of the commonest patterned finish coils and sheets which is, stucco embossed. They are produced in various alloys thickness in shallow and standard embossed depths.

Thickness range	Width range	Alloy
0.012 - 0.2mm	110 - 930mm	1xxx, 3xxx and 8xxx

Aluminium Foil

Products include household foil stock semi-rigid container stock for use in the food and packaging industry; fin stock for diverse heat exchanges applications and lidding for storage vessels.
